

# GPV Quality Policy

Subject	GPV Quality Policy
Version	2.0
Responsible	Plant Management
Approved	Bo Lybæk, Henrik Tornbjerg
Valid from	25 April 2017

GPV is a knowledge-based outsourcing partner with specialist capabilities within high technology and complex manufacturing and aims to be the most value-adding EMS-partner within high-mix/low-medium volume.

The level of quality in all our commitments is our most important competitive means and the cornerstone of our customer satisfaction.

To meet this, GPV's top management has determined the following guidelines and policies:

GPV will comply with local and international standards, regulation and legislation, and will consider the risks and opportunities in our business context in order to fulfil the needs and expectations of relevant interested parties.

GPV aims to constantly develop the technical capability and to build up an expertise that will meet present and future customer requirements.

The continuous improvement and management of changes are used as a mechanism to drive the effectiveness and sustainability of our Quality Management System.

This is achieved by concentrating on the latest and most efficient technologies of the business and a constant monitoring of market as well as customer developments.

***"Quality and Customer Satisfaction is our Commitment"***

*Standard work and total quality shall be achieved through everybody's participation, where everybody performs the best and Management is profoundly committed to quality.*

*Employee teamwork, training and empowerment will ensure that this policy is understood, implemented and maintained at all levels of our organization.*
