

GPV Sri Lanka is looking for

Junior Product Compliance Engineer

Responsibility

- Improving our customer experience by ensuring that our documentation related to product compliance and processes meets the needs of our customers and government officials.
- Developing GPV Lanka (Pvt) Ltd compliance engineering framework.
- Working as an internal expert to promote a product compliance culture within the organization.
- Ability to work independently to drive things forward, but good team work skills are also needed
- Systematic and analytical problem-solving skills, as well as the ability to manage large amounts of data using different tools such as Excel Pivot tables, MS Access
- Competence in documenting, visualizing and simplifying complex topics so that they are easy for others to understand.
- Basic knowledge of electronics and electrical designs.
- Excellent written and spoken communication skills in English.

Advantages

- A challenging role in a global business environment within the Quality department.
- A good insight into the latest technologies in several areas.
- The opportunity to develop your technical expertise in various fields.
- An opportunity to further your career in a global company.
